Scheduled Flight

Missions · https://wiki.simfly.io/docs/scheduled-flight/

Utilize the available filters to search for the aircraft you wish to pilot today. Depart from the airport where it’s parked and fly to the destination that is scheduled for that flight, whether in VFR or IFR conditions. Remember that renting aircraft owned by other players, rather than those owned by SimFly’s bank, enhances your earnings. Upon completing your flight, you will earn both “PAX” and “Experience Points,” which can be used to improve your pilot ranking and increase your earnings.
